Prologue		(iii)
Chapter	Subjects	Page
1	Introduction	
	Performance auditing: definition	2
	Objectives of performance audit	8
	Performance audit and programme evaluation	9
	Expected outcome of performance audits	10
	Performance audit and regularity audit	11
	Performance audit process	16
	Audit management process documentation	18
	Impact evaluation of performance audits	18
2	Strategic planning and selection of subjects	
	Strategic planning defined	19
	Objectives of strategic planning	19
	Procedure for strategic planning	20
	Inventory and sources of data / information for strategic planning	23
	Approval of the strategic plan by SAI top management	29
	Entity cooperation	31
3	Performance audit implementation plan	
	Understanding the programme, the entity and the environment	35
	Risk analysis	38
	Setting the audit objectives	38
	Expected value addition to the entity/programme	39
	Assignment, external assistance/outsourcing	40
	Criteria for assessment of the programme/entity	41
	Detailed guidelines for the performance audit	47
	Structure of audit implementation guidelines	47
4	Implementing the performance audit plan	
	Field audit process	52
	Developing the audit programme	53
	Audit approaches	54
	Audit test programmes	59
	Developing findings	60
	Developing recommendations	61
	Inventory of recommendations	64

Chapter	Subjects	Page
5	Evidence and documentation	
	Competence, relevance and sufficiency of evidence	70
	Types of evidences	72
	Sampling techniques	75
	Evidence analysis	76
	Documentation	78
6	Reporting process	
	Characteristics of good report	81
	Forwarding of the draft report	86
	Structure of the report	90
7	Supervision, review and quality control	
	Structure of supervision	94
	Review	96
	Quality control	97
8	Follow-up procedures	
	Parliamentary guidelines	101
	Annual follow-up programme	102
	Effectiveness of performance audits: assessment	104
9	Quality assurance in performance audit	
	Quality assurance and quality control	107
	Quality assurance review programme	108
	Skill and knowledge of audit personnel and training	110
	Annual training and professional development programme	111
10	Critical issues in performance audit	
	Audit management issues	112
	Critical technical issues in performance audits	118
Appendix A	Potential impacts of the performance audits	124
Appendix B	Performance auditing in IT environment	126
Appendix C	Important issues in the performance audit of public sector programmes	132
Appendix D	Evidence gathering techniques	135
Appendix E	Evidence analysis techniques	150
	Glossary	160
