## **Certificate of the Comptroller and Auditor General of India on Appropriation Accounts**

This compilation containing the Appropriation Accounts of the Government of Bihar for the year ending 31 March 2018 presents the accounts of the sums expended in the year compared with the sums specified in the schedules appended to the Appropriation Acts passed under Articles 204 and 205 of the Constitution of India. The Finance Accounts of the Government for the year showing the financial position along with the accounts of the receipts and disbursements of the Government for the year are presented in a separate compilation.

The Appropriation Accounts have been prepared under my supervision in accordance with the requirements of the Comptroller and Auditor General's (Duties, Powers and Conditions of Service) Act, 1971 and have been compiled from the vouchers, challans and initial and subsidiary accounts rendered by the treasuries, offices and departments responsible for the keeping of such accounts functioning under the control of the Government of Bihar and the statements received from the Reserve Bank of India.

The treasuries, offices and /or departments functioning under the control of the Government of Bihar are primarily responsible for preparation and correctness of the initial and subsidiary accounts as well as ensuring the regularity of transactions in accordance with the applicable laws, standards, rules and regulations relating to such accounts and transactions. I am responsible for preparation and submission of Annual Accounts to the State Legislature. My responsibility for the preparation of Accounts is discharged through the office of the Accountant General (A&E). The audit of these Accounts is independently conducted through the office of the Principal Accountant General (Audit) in accordance with the requirements of Articles 149 and 151 of the Constitution of India and the Comptroller and Auditor General's (Duties, Powers and Conditions of Service) Act, 1971, for expressing an opinion on these Accounts based on the results of such audit. These offices are independent organisations with distinct cadres, separate reporting lines and management structure.

The audit was conducted in accordance with the Auditing Standards generally accepted in India. These Standards require that we plan and perform the audit to obtain reasonable assurance that the accounts are free from material misstatement. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements.

On the basis of the information and explanations that my officers required and have obtained, and according to the best of my information as a result of test audit of the accounts and on consideration of explanations given, I certify that, to the best of my knowledge and belief, the Appropriation Accounts read with observations in this compilation give a true and fair view of the accounts of the sums expended in the year ended 31 March 2018 compared with the sums specified in the schedules appended to the Appropriation Acts passed by the State Legislature under Articles 204 and 205 of the Constitution of India.

Points of interest arising from study of these accounts as well as test audit conducted during the year or earlier years are contained in my Financial, Compliance and Performance Audit Reports on the Government of Bihar being presented separately for the year ended 31 March 2018.

### **Emphasis of Matter**

I want to draw attention to the significant variations (20 *per cent* and above in each case) between the total grant or appropriation and expenditure incurred, leading to a savings of ₹ 11,046.78 crore under nine grants/appropriations, the reasons for which have not been appropriately explained in the Appropriation Accounts. Further, 25 grants have persistent total savings of ₹ 24,318.74 crore and above during each of the last five years.

The audit observation on the above issue has been detailed in the State Finances Audit Report for the year ended 31 March 2018.

- (ix) (a) **Suspense Transactions:** Transactions booked under this head, not adjusted under final heads of account, are carried forward from year to year. The transactions include both debits and credits. The minor head "Suspense" has four sub-divisions viz, (i) Stock (ii) Purchases (iii) Miscellaneous Works Advances and (iv) Workshop Suspense.

The nature of transactions under each of these sub-divisions is explained below:

- (i) **Stock:** This head is charged with the value of materials received for stock purposes (not for any particular works). Value of the materials issued for use on works or otherwise disposed off is reduced from such a charge. The balance represents the value of materials held in stock.
- (ii) **Purchases:** When materials are received for specific works or for holding in stock without being paid for or adjusted during a month, their value is credited to the sub head "Purchases" by contra debit to the particular "Works" head of account or "Stock" sub head as the case may be. When payment is made or the value is adjusted by transfer of stores to other, the head "Purchases" is debited with the amounts thus relieving it of initial credit. This head will, therefore, show a negative balance representing the value of materials received but not paid for or adjusted. From 1974-75, this sub head has been abolished and the transactions of this nature is to be recorded under the head "8658-Suspense Accounts, 129-Material Purchase Settlement Suspense Account". But the Departments, viz., Building Construction Department and Road Construction Department are still following the pre 1974-75 classification pattern.
- (iii) **Miscellaneous Works Advances:** Under this sub head debits are booked for the value of stores sold on credit, expenditure incurred on deposit works in excess of deposits received, losses of cash or stores not written off and sums recoverable from Government Servants etc. A debit balance under the sub head thus represents recoverable amounts.
- (iv) **Workshop Suspense:** The charges for jobs executed or other operations in Public works Departmental Workshop are debited to this sub head pending their recovery or adjustment.
- (b) The details of the transactions under each of these sub-divisions during 2017-18 together with the opening and closing balances are given below:

(vii) **Suspense Transactions:** (a) Out of the expenditure under the grant ₹ (-) 37,658.39 lakh (net) was booked under the head “Suspense” which is not a final head of account. The negative balance is under investigation. Transactions booked under this head, not adjusted under final heads of account, are carried forward from year to year. The transactions include both debits and credits. The minor head “Suspense” has four sub-divisions viz, (i) Stock (ii) Purchase (iii) Miscellaneous Work Advances and (iv) Workshop Suspense. The nature of transactions under each of these sub-divisions is explained below:

(i) **Stock:** This head is charged with value of materials received for stock purposes (not for any particular works). Value of the materials issued for use on works or otherwise disposed off is reduced from such a charge. The balance represents the value of materials held in stock.

(ii) **Purchase:** When materials are received for specific works or for holding in stock without being paid for or adjusted during a month, their value is credited to the sub head “Purchases” by contra debit to the particular “Works” head of account or “Stock” sub head as the case may be. When payment is made or the value is adjusted by transfer of stores to other, the head “Purchases” is debited with the amounts thus relieving it of initial credit. This head will, therefore, show a negative balance representing the value of materials received but not paid for or adjusted. With effect from 1974-75, this sub head has been abolished and the transactions of this nature are to be recorded under the head “8658-Suspense Accounts, 129-Material Purchase Settlement Suspense Account”. But the Departments, viz., Building Construction Department and Road Construction Department are still following the pre 1974-75 classification pattern.

(iii) **Miscellaneous Works Advances:** Under this, sub heads are booked as debits for the value of stores sold on credit, expenditure incurred on deposit works in excess of deposits received, losses of cash or stores not written off and sums recoverable from Government Servants etc. A debit balance under the sub head thus represents recoverable amounts.

(iv) **Workshop Suspense:** The charges for jobs executed or other operations in Public Works Departmental Workshop are debited to this sub head pending their recovery or adjustment.

(b) The details of the transactions under each of these sub-divisions during 2017-18 together with the opening and closing balances are given below:
