6. Suspense - The Minor head "Suspense" temporarily accommodates receipts and disbursements which are in the nature of interim transactions. However, further payment or adjustments of values are necessary before the transactions can be completed and finally accounted for. Accordingly, the amounts under "Suspense" are carried forward from year to year.

In Public Works accounts, the "Suspense" head has three sub-divisions viz.- (i) Stock, (ii) Miscellaneous Public Works Advance and (iii) Workshop Suspense as explained below:-

- (i) Stock Under this head the value of materials, which are required not for any particular works, but for general use in the division, are accounted for. The value of materials issued for use on specific works or sold or transferred to other divisions is cleared from the accounts by transfer under this sub-division. A detailed head purchase, is also now operated to record the value of the materials received, but not paid for within the Month. The sub-division "Stock" will, therefore, show a balance indicating the book value (as distinct from market value) of the materials held in stock and unadjusted charges connected with manufacture, if any, and Charged to this sub-division thereby reducing the value of the materials received but still to be paid for or adjusted.
- (ii) Miscellaneous Public Works Advances Under this head, the value of stores sold on credit, expenditure incurred on deposit works in excess of deposits received, value of cash lost or stores still to be written off, sums recoverable from Government Servants, etc. are accounted for. The balance represents the amounts which are recoverable.
- (iii) Workshop Suspense Charges for jobs executed or other operations in the workshop of the Public Works Department are booked under this sub-head pending recovery or adjustment of the charges.

The break-up of "Suspense" transactions in this grant in 2012-13 is given below together with the opening and closing balances, under the different sub-heads of 'Suspense':-
